Sustainable Luxury Selection

naia SILK

Acetate & Silk Sustainable Blend

Elegant Drape & Soft Texture

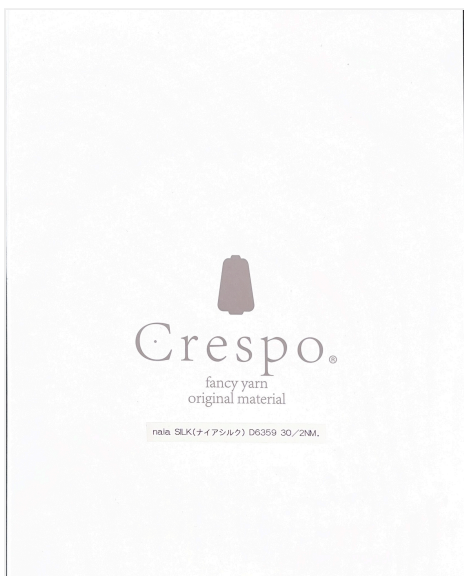

Fine Ribbed Structure

Elegant Luster & Gentle Touch

naia SILK combines the elegant, vibrant luster of acetate with the skin-friendly, luxurious touch of silk. This blend offers a distinctive appearance that adds natural richness and grace to high-end apparel.

CHARACTERISTICS OF NAIA™

Derived from sustainably sourced wood pulp (pine and eucalyptus), naia™ cellulose fibers are naturally breathable and quick-drying. It provides a silky, cool touch and exceptional drape that beautifully complements any silhouette.

Technical Specifications
